

2-in-1 business laptop case and laptop stand

When we're on the go, we often use our laptop for short bursts of work, taking a less ergonomic posture that can cause problems.

The ErgoTraveller is a unique ergonomic laptop case that allows you to quickly and easily work on your laptop right from the case when you're on the go.

We advise not carrying bags weighing more than 4 to 6.4 kg with the hand. Factors in this are distance, frequency and gender.

Ergonomic: quickly and easily open your laptop directly from its case, and position your screen at a comfortable height.

Mobile: in the train, hotel lobby, airplane anywhere you are, you can quickly and easily get set up to work on your laptop.

Comfortable: keeps your legs cool for comfort when you place the laptop on your lap.

Carry-on luggage: ideal for customs, as it doesn't need to be removed from the case for customs control.

Top design: exceptional, unique sleek design; fits laptops up to 15.6 inches.
